### **REVIEWS:**

'...It was nothing short of brilliant; it was captivating... Complete strangers were embracing each other if for no other reason than to support one another because they had all lost their balance from laughing so hard--and they had been sitting.' -[Lifeinla.com](http://Lifeinla.com)

'At times, you could hear a pin drop, as the entire audience leans in to this incredibly vulnerable performer...Her training shines when she strips away the tulle and sugar, to show a real woman in pain. Though the rest is fun, it is these moments that make the show worthwhile.'

- [DivulgeMagazine.com](http://DivulgeMagazine.com)

'Using snippets of her show and questions from YouTube, the Bakeress answers questions about love, sex and relationships...Karnofsky's charm and delicious treats are yummy goodness.'
